Attn. Mr. Welter, OSAA.

Ruben has been seen in clinic for various injuries since last year. Among them were abdominal pain, Rt leg fracture, finger fracture and knee sprain. He also has seen ENT and needed surgery for his nose condition. He missed a lot of school for those reasons and subsequent follow ups.

He was also diagnosed with speech and communication disorder through his previous school and was on IEP that has helped.
Please contact us if you have any question.

Sincerely,
