Proficiencies: \_\_\_\_\_ R=(236) \_\_\_\_\_ W=(40) \_\_\_\_\_ Math=(236)  
Ext.App.Project: \_\_\_\_\_  
**Describe Recovery Plan:** \_\_\_\_\_  
I'm going to make sure I'm able to combine current credits with my new credits and catch up sooner. By June year 2016 I will be back on track to achieve all my goals. Some credits needed for graduation.  
Regular grade checks will be conducted to

(more plan room on back)

I agree with and support this plan as an achievable pathway to graduation.

**Credit Recovery Plan continued: (what will you do and when will you do it?)**

ensure student is staying on track each marking period. Where data suggests that the student is struggling, further help be assigned to assist. All that are taught and are available for all students. If a credit recovery class is necessary at any time student credit project is sufficient to allow this. Summer school will be assigned to pick up the remaining 1.5 credit needed for graduation, and to keep student on track and avoid any credit deficit. This summer school will be offered in summer of 2015 and 2016. Summer School Credits (course) to be determined. Each summer what is available in the classroom varies based on student needs we prefer credits be made up in a regular setting w/ teacher instruction. If credits the lib needs are not available in this fashion, we will assign on-line.
