

To the OSAA eligibility team,

I am writing this letter to assure my eligibility to play in the 2015/2016 basketball season. I chose to do online school after I had a season ending injury. It was not only hard for me to walk around the school and get to my classes on time, but my emotional wellbeing was wrecked at the fact that I could not finish my first high school basketball season after I was doing so well. To a lot of people this would not seem like a devastating ordeal, but to me it was because I've worked extra hard to get to the point I was at when my injury occurred. I got everything I've worked for, for the past 8 years taken away from me last season and I do not want that to happen again over something I wasn't even aware of. I was unaware that I was not taking enough courses last spring to be eligible for this basketball season. As of now I am enrolled in the required amount of courses and have high grades in all of them. I feel the busier I am in sports the higher I excel in school. Please do not take that away from me due to a miss communication.

Thank you so much,

Shelby Olson
