I'm writing this letter to ask for permission to let me swim this year, even though I failed five classes out of seven last year. I had three fails and two incompletes, however at the beginning of this year I did make up those two incompletes. The reason I didn't pass those classes was because. I am actually on track to graduate I just have to pass my classes this semester and the next. I do have to make up a half a credit but I am working on that right now. If you let me swim I will stay on track with my grades, the sport makes it so where I have something to push me to do my work at school.

Thank you,
