Hello! My name is Tunyarat Janggate and nickname is Mind but American friends call me Tunya because it's too hard pronounce. I have been visit Reynolds High School in last summer and stayed with same family I were. My host mother name's Lorelei Gullett and My host father name's Reece Gullett. They are so nice and kind that make me impress and decision to live with them again for exchange student about whole school year.

Normally, Exchange Student Organization find a host family for us and host family will choose a student who they would like to live with but in my case I already had host family, I am so lucky to be here I can choose to have a new host family but I didn't cause they made me feel as a real family. However, the one important reason why I decision to be here that a school. I was impress Reynolds students, teachers and sports. My favorite sport is swimming I love swimming, I love to ware swimsuit and I swam since was 7 years old, I never studied of swimming skill just done it by myself. It' not serious swim or become swimmer it's just one of activities in my free time, hobbies, or after school. So I would like to know of team work doing Is it difference? This sport is the one way I like to loss weight. I hope Reynolds swimming team make me have a lot of friends, experience and swimming skills then I go back my country it gonna be the one big good memories of my American life in a year
