

I suffered a concussion on the fourth week of football and was out of school for about a month. The reason why I only passed 3 out of 4 classes was because my art teacher and counselor thought it was the best for me to drop my art class. I was in and out of school for the next 5 weeks with headaches and could not focus and the light was too bright and noise for me. I was only back for about two weeks and took modified test and quizzes to try to pass geometry.

A handwritten signature in cursive script, appearing to read "Henry Lee".
