

To whomever it may concern,

I, Molly Raelynn Benjamin was out of school last year for the entire semester due to a head enjurie that left me encapable of going to school and carrying out regular tasks. During this time I was doing a tutoring lesson daily so that I could keep up with my studies. Mr. Overton and Mr. Shreve know about this study and were supportive of it as I recovered.

I am still recovering and do still struggle with post concussive syndrome, but my doctors have cleared me for certain sports.

Respectfully,

Molly B.
