

My son Carlos Chavez, is currently living with Larry Pershin(Family friend). He is in a healthy environment, and Lost River High School has more to offer him than any of his previous High Schools. I Carlos Marquez, his father wants him to live with Larry because living at home with his mother wouldn't be a good choice for him. She has medical issues and isn't mentally stable. Carlos doesn't need to be around her when she has her breakdowns. He has had more of a positive attitude, his grades improved, and he has told me he is content with his life ever since he moved out and transferred schools. Living with Larry and going to Lost River is by far the best choice for Carlos and his future. I hope I am able to see my son play basketball his senior year. He has had it hard these past years and I truly believe he deserves it.

Carlos Marquez E.
