

To Whom it may concern:

Adrianna Wigzell came to live with me on November 26, 2015. Due to circumstance that led her to me. (I am her Mothers biological sister) She has a had a very unstable environment living with her mother. She has not provided a stable environment for her. Due to the use of drugs, I watched her go from couch to couch and home to home till she finally made the decision to let her come live with me. She has and always will do good in school despite not knowing where she would be sleeping and at who's house. She was doing really good living with her Step-dad and girlfriend until they got into an argument and they called me and asked me if I would take her and I welcomed her with open arms. At this time this is the best place for her to excel and shine with the right things in place. The state came and talked to me and within 15 minutes they also decide this is the best place. She would really like to do cheer leading, and I think If let to be, and the stable environment she is in, she will be a good addition to the team. Please she has been punished enough let her shine!!!

Thank You,

Tina Smith

(Adriannas Aunt)
