Why I Came to WCHS

One of the reasons I came to wchs ls be because I was being bullied at my old school. I was called names and learned how to avoid people but that isn't how I want to feel when I'm at school. Sometimes I was even pushed and shoved. The names I were called went something like this dummy Idiot fag dip wad etc. Some people it's funny but I thought it was annoying. I would even get called I suck at sports and don't deserve to play my position because I was bad or I deserved to not be on a team.

In the last two years I've had 3 friends commit suicide and 2 try too. I was devastated at the fact that all their notes said that they were being bullied at school and all I could do is tell myself If I was there then I could of stopped it. Sometimes I blamed myself for it and I didn't want to be at school anymore. Sometimes I would skip to avoid the drama at school. I quit playing sports so I had nothing to keep me occupied.

I look forward to playing basketball. I know it may not happen this year but next year I will. I like the idea of being around other Christians and I'm not good at reading the bible so taking bible classes will help me. I am really shy and I work hard to be outgoing but what felt good was how friendly people were. I hope to make friends and do better in school. I feel like there are a lot of people there to help me. I know I have a lot to learn but I don't wake up with anxiety now. I am really happy about it.
