

The Reasons I could not make to school on many days is because I had no transportation to get me there and often I did not wake up to go to school. I also was sick for a little while and wasn't able to go to school. I wanted to go to school but lacked the work ethic to do so. but this year I want to be able to play basketball and do good in school and to catch up on my credits by taking online classes. Basketball gives me this work ethic by driving me to do good in school, so I can be able to play this year. I've been working harder and showing up for school more than I did last year and I am working to be able to play in games this year. I did not show up for most of my classes last year because of how my classes were moving to fast for me to catch up so I gave up because I didn't have motivation to work harder and to get my grades up but I feel as though I am working harder to catch up in school to be on track for graduation.

Sincerely

Marquis Stephens
