Brianna Jones
6180 Red Prairie Rd
Sheridan, OR 97378-9400

To whom it may concern,

I have been following Brianna Jones as her PCP for over 2 years. In the time that I have known Brianna, she has struggled with depression and anxiety. A primary source of her struggle was her school environment and additional social pressures that came as a result of participating with her *hometown* cheer and dance squads. The family felt she would thrive in a small school environment and made the decision to have Brianna reside with her grandmother. Since moving, she has been doing well and is thriving. Brianna gains self-confidence from her participation with dance and cheer. At this time I feel it is vital for her mental health to continue to participate in these activities. I am requesting that Brianna be allowed to participate in the competitive cheer squad to continue her strides toward a positive mental health lifestyle.

Thank you for your consideration of this request.

Sincerely,

Provider: Andrea Stout MD 11/16/2015 09:13 AM
