Comments: Many of the writings are in process at this time. The students must attend class in order to stay on top of the work. They are also reading INTO THE WILD as a class novel on their own with a journal write. They should have the information as they were asked to take a photo of the information on the board for the journal. May not be turning in assignments. This is bringing down the grade. I understand the concussion is really affecting Jolene at this time.
