

To Whom It May Concern,

January 26, 2016

I Leann M. Fuller am submitting a Hardship exception letter for Hayden L. Calton to be eligible to play sports due to her transferring midyear of 2015-16 academic school year.

She is currently residing with her grandparents whom I have given legal guardianship to at this time due to the fact that our current residence had a kitchen fire at the beginning of this year. We currently do not have a functioning house with appliances or food and other personal items. At this time I felt it was good time for Hayden to reside at her grandparent's house so she can have a stable home, and she can have a head start on getting established in the school, as it was our plan to move into the district later this year.

It was not in the plans to start off playing sports, but she has made some friends on the basketball team and would like to finish the season playing with them, I feel that belonging to a sports team is a good way to create friendship, give her a solid foundation in a new school along with building her confidence.

Sincerely,

Leann M. Fuller

1/24/16

I would like to participate in basketball this season because I want to build friendships with people in my school and stay in shape. I am currently living with my grandparents due to a kitchen fire we had earlier this month. Because of the fire I did not have a lot of my own personal items and it was difficult to manage academics and sports without those things. I have a few friends currently on the basketball team and I would like to finish out the season with them. I didn't originally plan on playing but like I said I would really like to build more friendships and become more familiar with the sport.

Hayden Calton
