Dear Mr. Welter,

Jyles Layton is a senior at Milwaukie High School who we seek a hardship to allow him to finish competing on our basketball team this season. Jyles recently failed his Algebra 2 class and with that, only passed four classes during his first semester in this 2015-2016 school year. Jyles was taking Algebra 2 as an elective as he has completed his math credits already and is on track to graduate. Jyles only needs 1.5 to graduate at this time. He was taking Algebra 2 to prepare for collegiate level math classes and he still intends to go to college and retake Algebra 2 and this is the first class Jyles has ever failed. Jyles worked with his math teacher, peers, coaches and a tutor to try and understand the materials and concepts for Algebra 2, but still had a difficult time passing the assessments.

Jyles has excellent attendance, works hard each day at school, has had no behavior issues in school or in athletics competitions. Jyles is an exemplary student with his strong work ethic and commitment to our basketball program here at Milwaukie High School.

Please consider this hardship for Jyles. His math grade does affect his GPA and the amount of classes he passed last semester, but does not take him off track towards graduation. He is a hard worker who has put a significant amount of diligence towards attempting to attain a passing score.

Thanks for your consideration!

Sincerely,

K.T. Emerson
Milwaukie High School Athletic Director/Assistant Principal
