Breanna came down to visit in June of 2015, during her visit her mom went to jail for drugs and driving illegally. Bre was very nervous about possibly having to go back into foster care and didn't want to go home to Oklahoma and possibly have no where to go or put into foster care, so we took her in and when her mom got bailed out we had her send us a signed paper giving us temporary guardianship. My eldest daughter is apart of the Baker charter schools early college program, and my son Gregory was entering 9th grade at Ridgeview, so we gave Bre both options, she chose baker but it was too late to enter the college program that first semester so because she was nervous about going to a large school she chose the online program at Baker. Bre had a really hard time focusing and having to manage herself and when it came time to do early college she was behind struggling most of winter break to make up everything and so she decided to instead just go to Ridgeview. Now she would like to have the opportunity to play a sport.
