Dear Mr. Welter,

I write this letter on the behalf of Courtney Cox. Courtney had some challenges in her life that caused her to struggle during her sophomore year. She admittedly got off track and has been working since the end of her sophomore year to really turn herself around. With that, softball is a sport she would like to be able to compete in and round out her last two years in high school as both a strong student and competitor athletically.

Courtney has demonstrated consistency in attendance and follow through throughout her junior year. She has committed herself to completing assignments, turning assignments in and meeting the expectations put in front of her by teachers and advisors. With the support she has received this year both at home and at school, Courtney had demonstrated the ability to take challenges head on and stick with it to find success.

Courtney is currently enrolled in credit recovery and about 40% done with one of her courses. She will be taking a second course this semester as well to help her gain a full credit towards graduation. With the .5 credit she is almost finished with, she will obtain "adequate progress towards graduation" as defined by the OSAA for the beginning of Junior year. She still has work to prepare for the 17 credit requirement going into her senior year, but through continued credit recovery, and completing course work this semester and during the summer, she should have her 17 credits prior to starting her senior year.

Thank you for your consideration of eligibility for Courtney. She is a good child and a student who continues to strive towards success. Softball will help her compete and obtain structure in her life that will help her focus on meeting or exceed expectations. I am proud of Courtney's progress this year and will continue to work with her weekly on staying on the right path towards graduation and overall success in life.

Sincerely,

K.T. Emerson
