

Dear OSAA,

I am writing this letter in regards to working on being eligible for softball. I admit that last year wasn't the best for me. I was out for almost 3 weeks from tonsil surgery, then breaking my foot and then my finger the day I got released for my foot. I had a lot of missed work and it was hard to catch up because I was so far behind, I had no motivation coming back. But this year I have really been trying my hardest in school. I just started credit recovery, finally. And finished two exams. I'm getting all my work in and attending all my classes. I also passed all my classes last semester. I have been attending some of the open gyms for pitching and hitting after school, and I'm trying to get back into that from being out for so long. Softball has been a huge part of my life since I was little, and playing my last two years of high school would be awesome for me. It will also keep me on track with school work, and it would be a huge help on getting me into a good college after high school. I feel like it would be a great opportunity for me to play this year. I am getting back on track with credit recovery and I have already made up the half credit I needed to be eligible for softball last semester with an extra english class I am taking. Thank you for taking your time to read my letter of eligibility, and I really hope you consider letting me play softball this year as for I am getting back on track and doing really well.

Sincerely, Courtney Cox
