

To Whom it may concern:

This letter of hardship is being requested for my daughter Cheyenne Hilliare.

Last school year was a rough time for our family, especially Cheyenne. We had a lot of changes take place; her younger brother went to live with his father, we moved to Waukegan, WA, and her older sister went into detox.

My 5 children have always been very close growing up. With it being only myself and them, they relied on each other a lot and spent a lot of their time together. So with the older siblings growing up, moving on with their lives, Cheyenne has felt very alone last year and in return, made some bad choices. But amongst all of it, she has always played on a travel softball team because she loves the sport.

This school year has been a great one for Cheyenne; we moved back to Echo School District, her younger brother is back living with us again and her older sister is drug free and Cheyenne is now an aunt, twice. Our family has dealt with some huge struggles but on track and Cheyenne is looking forward to playing softball with her Echo teammates that she's grown up with since second grade.

We are asking you, if you would
give her the chance to represent
Echo Softball in a positive way.

Thank you for your consideration,
Cheyennes mom, Nicholle Nicholls
