I need to submit a "credit recovery plan" for Cody Lueck- Can you give me a little snapshot on how we are catching him up to graduate. He is about .75 from the 4.5 he needed at the beginning of the year.

Thanks Roberto!

KT,

Here is the situation on Cody Lueck:

Cody and I have met many times to discuss how to get back on track after moving here Albany. He arrived with 3.87 credits. In his first semester at Milwaukie HS he has earned 3.0 credits. He is currently scheduled for an addition 3.5 credits plus credit recovery course. This means he has no study hall. In credit recovery he is currently working on Physical Science and English 9. I anticipate he will have these both done by April because he is a hard worker and is nearing completion on his science class already. At the end of this year our plan is for Cody to have 11.37 credits
