

To whom it may concern, I, Ishauna Marie Johnson am writing to kindly ask you to make a consideration regarding my following situation. A little over a year ago, I got into some legal trouble for my choices and my drug use. Ever since then, I have been in and out of treatment and juvenile detention. As of right now I am in a treatment program in the Douglas County Juvenile Shelter called Touchstone. I have been in Touchstone for the last six months. I have made tremendous growth and progress while in the program. All of the credits I have, I have earned while being incarcerated. Prior to my lifestyle change and poor choices, I was an excellent student and a student-athlete. I built structure and responsibility through the many clubs and sports I participated in. So I'm writing this to ask that I am given the opportunity to put that structure and positivity back into my life. I am more than willing to do whatever it will take academically wise, as long as I can be apart of something bigger than myself. Thank you for taking the time to read my letter and take my request into consideration.

Sincerely,

Ishauna Johnson
