Tom-

Our on-line program is called Acellus. As soon as our principal, Rollie, is out of his meeting this afternoon I will speak with him and send you a list of the courses Brent will need to complete this summer to make up for the courses he did not pass. Let me know if you have any other questions.

TJ,

Do you have any type of credit recovery plan set up for this student to re-gain some of the courses that he failed last year and first semester this year (maybe some online classes that he could take over the summer to get back on track toward graduation)? I would like to see some type of written plan show what courses he is going to take and when he will complete them.

Thanks,

Tom

Subject: Progress for B.H. Hardship

Mr. Welter-

The following is Brent Hay's current progress grades at Weston-McEwen High School:

Period 1	Online class	Currently active (no grade yet)
Period 2	Learning Center	80%/B
Period 3	Advanced Woods	63%/D up from an F over the past few weeks
Period 4	Geography	68%/D up from an F over the past few weeks
Period 5	Advanced PE	70%/C up from an F over the past few weeks
Period 6	Science	64%/D up from an F over the past few weeks
Period 7	Advisory	73%/C up from a D over the past few weeks

I also wanted to restate as I did in my submission online that Brent is currently being assessed for special education services for a learning disability. He was removed from an IEP prior to attending Weston-McEwen High School and based on his lack of progress the special education team has moved to re-assess Brent for services.

If there is anything else you need, please let me know. I sincerely thank you in advance for your time and consideration.
