

To Whom It May Concern,

Eric Spaulding is a senior who is working very hard to earn enough credits to graduate in June, 2016. His on-line classes are progress well and he should finish in late May. On-line courses require self-motivation and independence and I appreciate Eric's willingness to do what is necessary to finish these required classes.

Eric's grades are very good at this point, another indication of his resolve to work towards the goal of graduating in June. His grades at this time are; English (B), Criminal Law (A+), AP Physics II (B) Forensic Science (B).

Eric is committed to his extracurricular activities and I hope that his efforts this semester are considered in determining his level of participation.

Sincerely,
