Hi Peter, this in the staff email I sent out that includes the accommodations.

Sorry about the email situation on Friday. We were having wireless issues in the school that even had our printers down for part of the day.

Please let me know if you need anything else and I will send it on Monday.

Have a great weekend! Angie

I will have a print out for him today during class.

Thank you,

Katrina

Good morning,

T.W. (708347) will be coming around with a travel card. He would like to do whatever it takes to pass your classes.

Currently he is unable to play baseball due to his grades. He wanted me to let you know that he is struggling with

some very difficult family issues that have contributed to his absences and lack of focus. Please let this SPED student

know what he needs to do in order to make-up the work. T.W.'s accommodations are: alternative forms of assessments, graphic organizers, visual aids and examples, read tests and quizzes aloud, access to room 109, extended time to complete assignments, and large assignments broken down/chunked.

This IEP with these accommodations was put in place on 10/13/2015 by Jennifer Colachico, the district case manager who had my caseload before I began as T.W.'s case manager on November 19th.

Thank you for taking the time to see this student and please contact me if you have any questions.

Best wishes,

Angie Albus

McKay High School LRC Case Manager (Rok-Z) & SPED Teacher

McKay Royal Scots Baseball Game Manager
