Hi Peter and Tom,

First of all Peter, thank you so much for taking the time to talk to me about Tanner W.!

I know how busy you are and as always, it was a pleasure to speak with you about baseball.

These are the extensive accommodations that the student should be receiving.

However, with the enormous difficulties he has had recently at home and leaving his home, he has missed quite a bit of school.

The reason I really want to advocate for this student is due to the wonderful work Coach Jerimy Kelley does on and off the field

with all his players.

They go to after school tutoring and they have many bonding activities which really helps Tanner to have positive experiences with non-disabled peers.

Coach Kelley is a top notch coach/teacher and he has an administrative degree, so he thinks like an athletic administrator. The program encompasses such a strong academic leadership that makes this opportunity for Tanner to be part of the team academically and athletically sound.

Tom, I would really appreciate if you could take a look at this student's modifications and reconsider his situation. I truly appreciate your consideration and Peter's consideration of this matter.

Best wishes to Amerilynn! Although I am no longer the AD for Amity and love my position here at McKay, I really miss seeing all of you! ☺

Tanner W.: The following staff supports are required for the child to advance appropriately toward attaining annual goals. Supplementary Aids/Services; Modifications;
