

Dear Mr. Medley,

My name is Hana Fry and I'm a dancer on the Scappoose Vision Dance Team. I've been dancing with them since middle school through 12th grade. Dancing is my life and I put nothing above it. This year I am a Senior captain along with my other senior leaders. So far this season i have not been able to dance in a competition because of my grades from the previous year. Our fall season is over now and starting in January I'm hoping i will be able to compete with my team for state season.

I moved schools this year from Scappoose High school to South Columbia Family School. I moved schools towards the middle of the year for a couple of reasons. The first reason for me is I don't feel comfortable in a classroom setting. Being around that many people all day really made me exhausted. The other reason is I have a tendency to get distracted very easily. Having all my friends around distracted me from doing school work. One of my goals is to get myself on track and graduate this year and with these problems in the way i knew i couldn't stay at Scappoose. So that's is why i moved to an online school. And I'm doing a lot better now.

Sincerely,

Hana Jane-Marie Fry
