To Whom it May Concern,

Elijah Trigg is a sophomore at Mountain View High School with a full schedule of 7 classes. Although his grades are below expectations to participate in extracurricular activities they are improving.

Lack of attendance is the major factor in not having the required GPA to participate in activities. Elijah's was ill with a very communicable disease earlier this semester resulting in a compromised immune system and many absences. Elijah is working on improving his grades and has been at school 5 out of the last 7 days and attendance continues to improve.

Elijah will benefit from full participation in our choir.

Thank you for your consideration,

Jan Kailey
Counselor
Mountain View High School
