To Whom It May Concern:

I am writing you in regards to Riley King and his eligibility to participate in Orchestra. This past year Riley had struggled emotionally which interfered with his success in classes. Riley is a very capable young man but his personal struggles held him back. However, he is on track for the Oregon Standard Diploma and is working to retake some of his courses. He currently is enrolled in an online Math course for a .5 credit, and working towards 1.0 credit for his job, and will participate in Drivers Education for a .5 credit. As you can see from Riley's transcript his junior year was more successful without the stress of his emotional struggles. At the end of his junior year Riley will be on track with his credits and meeting satisfactory progress.

Sincerely,

Shanna Nesbitt

School Counselor
