

Hey Tom,

Regarding Lucia's graduation plan, she is going to be enrolling in summer classes this summer. Lucia is also pursuing outside options for credits, such as BYU, or other online options to recover some credit. Her hope is to graduate next year, however she realizes that she is behind in math credits, and she is realistic about staying for one more year if necessary to earn her diploma. She has been persistent in her pursuit for her diploma.

Thank you,  
Stuart Massey.
