

In my second trimester I was only enrolled in two classes. I am currently enrolled in three classes and have a work study job in my third trimester; giving me the required two credits to play a sport. I also have completed 24.5 credits out of the 24 required credits to graduate. I was unaware that I had to be enrolled in 4 classes (2 credits) to be able to play a sport. Please allow me to finish my senior year by playing the sport I love. Thank you.

Please allow my son to play tennis his Senior year. He is a very hard worker. It would mean a lot to him if he could compete.

Thank you.
