

To whom it may concern,

I recently transferred to Reynolds High School from Sam Barlow. The reason for my transfer is that i moved in with my cousin in the Reynolds district because it was a safer place for me to be due to the abuse I've had from my biological father who currently has a warrant out for his arrest. The abuse happened at the house I was living in, which is in the Sam Barlow district. This transfer was in no way my choice or in my control. That is the reason I transferred schools.

The reason I am requesting sports eligibility is because sports are the only things I have really looked forward to recently with all this going on. Sports give me self-confidence, a hunger for success and a work ethic that is needed to win. Sports have taught me more life lessons than anything else. My love for sports goes back through my entire life. Next year will be my senior year, the year I've been working for my entire football career. It would feel like a punishment for something that was out of my control, to have sports taken away.

Thank you for your time and consideration,

Chase Buel
