

3/3/16

To whom it may concern,

My name is Kaylin Klobas, and I suffered from a grade 3 concussion during the fall of the 2015 soccer season. I am a full time student at Reynolds high school and after my concussion symptoms (loss of consciousness, extreme headaches, nausea, vomiting, sensitivity to light and noise, dizziness and blurry vision) progressed it became increasingly difficult for me to participate in a full school day. After many doctors appointments and increased symptoms I was put on a 504 Medical plan.

While I was on the 504 Medical plan I was expected to pass five classes so I could participate in the 2016 track season. Unfortunately, In my condition, I was only able to pass four classes. I am now currently enrolled as well as passing all seven classes (which is typical for my previous years in education) and I attend school regularly. I have stayed in close contact with my medical provider and they have cleared me to participate in the 2016 track season.

Track and field season has easily become my favorite part of the year. I have been participating in this sport for six years now and it would be devastating if I could not compete this season because of a non preventable injury. I have worked very hard to follow all doctor's orders so my brain can heal from this injury. I am also working with my teachers to fix my grades from last semester. It would mean the world to me If you would allow me to compete in track meets this season-despite my grades last semester-which were influenced by my concussion in the fall of 2015.

Thank you for your consideration, I look forward to hearing from you as soon as possible.

Sincerely,

Kaylin Klobas  
Reynolds High School Junior
