

1
To whom this may concern,

I had been homeschooled from the third grade until the ninth grade. I was in public school from kindergarten until third grade in the Beaverton School district. I have never gone to a Hillsboro public school and have never represented a school. When I was 6 I played soccer but other than that I have never really been on a team. I went back to school so I could get a better highschool education. We ended up picking Faith because it worked well for me and I love the environment. I would really like a chance to compete.

Sincerely,

Emma Richards
