To whom it may concern

By this letter I explain the reason I had to move to California and the comeback to Grants Pass. During my freshmen year, my mom and I had to go to Mexico because my grandmother was really sick, the plan was that when we came back my dad was going to pick us up in California. When my mom and I got to California a friend of us call and told us that my dad had a heart attack and he was seriously ill. Sadly, he passed away, and my mom and I returned to Grants Pass.

During February of the current year my mom received a letter from the hospital in California saying that she needed to fix somethings about the donation of the organs of my dad, and in order to do that she needed to be there. My mom thinking that those thigs would took a considerable period of time, took me out of school and move to California with me. Thankfully those things didn't take too long to solve, and we only stayed for a month.

I attended Los Altos High School but at no time I had the intention to became a member or join the speech club, if there is some reference needed of what is mentioned in this letter I'll annex the telephone number of the school at the bottom of this letter.

I appreciate your interest in me and my little family, I hope you will allow me to compete in the event that will be held next week.

Sincerely,

Daniela N. Jordan
