

4-12-14

To whom it may concern,

I let my grades slip down and had trouble getting them back up. Last semester it was hard for me to catch up on material I had missed. This semester I have been trying really hard to get and keep my grades up so I can be eligible. It hasn't been easy for me, but I am willing to put in 110% effort in obtaining acceptable grades.

Thank you for your consideration in this matter.
