Re: Laddie Wirth, DOB 6/21/1998

To Whom It May Concern:

I am a physician writing to provide documentation and collateral information in support of Laddie Wirth's request for hardship eligibility, such that he would be able to play sports as a high school senior in the 2016-17 school year.

I am a provider not for Laddie but for his mother, Janine. A serious health condition she was experiencing in the 2013-14 school year had a major impact on Laddie and significantly contributed to his inability to function academically that year. Janine has already provided information to you that documents Laddie's emotional/learning challenges. In addition to these, and intensifying his disabilities at that point, in the fall of 2013 Janine was thought to have a serious form of cancer. She was extremely ill for a number of months. During that period of time, Laddie failed every one of his classes and was unable to participate in sports. He essentially lost a year of his life as a student.

I hope this information is helpful to you. Thank you for your consideration of the Wirth family's request.

Sincerely,

A handwritten signature in black ink, appearing to read 'Christin J. McIntyre', written in a cursive style.

To Whom It May Concern:

Janine Wirth is my patient. I am treating her for a chronic medical disability. Mrs. Wirth uses a Service Dog to assist her in managing this disability, and I support her in doing so. It is my professional opinion that Mrs. Wirth's Service Dog is medically necessary. Please accommodate her and her Service Dog, as requested.

Sincerely,

Christin J. McIntyre, MD, PhD
